

## Natural Bio-Tan Treatment

Tan naturally with our Radiessence Instant Tanning Mousse, the next generation in tanning technology for the perfect professional tan. The tan is instant, long lasting, fast drying and applied with the Radiessence Microfibre Application Towel for a streak free finish. Radiessence Instant Tanning Mousse has been formulated with revolutionary plant extracts to revive the skin with an instant natural looking tan.

### The Treatment:

Applied immediately after sugaring the tan stays on for up to 9 days, as the dead skin has been removed from the skin surface allowing the tan to go on evenly and last longer. The moisturisers in Radiessence Instant Tanning Mousse nourish the skin at the same time. A great treatment for a special occasion or just to pamper your client.

### Products used:

- Phâro Marine Extracts Gel
- Radiessence Instant Tanning Mousse
- Radiessence Micro Fibre Application towel

ECO SPA  
TREATMENTS

## Phâro Rejuvenation Treatment

Let your client experience a light spray with **Phâro Apres Sugaring Hydrating & Cleansing Mist** which naturally and gently hydrates, cleanses, protects and tones the skin after sugaring. With Aloe Vera to soothe the skin and Witch Hazel to relieve any inflammation, the cooling mist will cleanse the pores and leave the skin cool and toned. Witch Hazel is also a great astringent herb with slight aromatic properties and this nutrient enriched product also contains the herb Arnica that is widely used to treat bruising and swelling. Arnica also has anti-inflammatory and antibiotic properties that can assist in relieving discomfort.

### The Treatment:

Lightly spray the treated area then massage gently into the skin. Spend some time massaging the **Phâro Apres Sugaring Hydrating & Cleansing Mist** into the area that is being treated until the mist is absorbed into the skin. The skin will soak in the nourishment and the area that has just been sugared will be rejuvenated. Arnica, Tea Tree and Aloe Vera will soothe and nourish and protect the skin. This treatment is finished off with cold/ warm compresses depending whether it is summer or winter. This is a great way to complement any regular sugaring treatment. Many salons have already been using the **Phâro Apres Sugaring Hydrating & Cleansing Mist** after treatment, however you can now add it to your menu and finish with a compress so that your client leaves relaxed and rejuvenated.

**Phâro Apres Sugaring Hydrating & Cleansing Mist** is available in a cooling 200ml aluminium spray bottle and 1 ltr refill bottle.

### Products used:

- Phâro Manuka Honey Sugaring Gel
- Phâro Apres Sugaring Hydrating and Cleansing Mist

## Phâro Mask Cleansing Treatment

**Eco Spa Argiletz French Green Clay Mask** is a pure product that helps detoxify and improve the appearance of the skin. Argiletz® superfine green clay, exceptionally rich in minerals, is a fine clay powder of about 60 microns. This mask is a special blend of green clay, neem, rose and cucumber which will cleanse and close pores after hair removal. Neem is a natural antiseptic that soothes skin and heals eruptions like pimples and blackheads. It restores the skin's natural oil balance and also stops scaling. **Eco Spa Rose Floral Water** tones and revitalises the skin, giving a cooling and refreshing effect making the skin supple and youthful. Cucumber is a natural cleanser and moisturiser which cools and nourishes the skin. It removes dead skin cells and is effective for dark circles around the eye area. The key purpose of this unique mask blend is to draw out impurities and excess oils and reduce bacterial activity on the skin.

### The Treatment:

When mixed with **Eco Spa Argiletz French Green Clay Mask**, the moisturising effects of **Eco Spa Rose Floral Water** enhances skin tone and smoothness, and cleanses and closes the pores after hair removal. **Eco Spa Rose Floral Water** is a 100% pure and natural, non-alcoholic distillate resulting from the distillation of *Rosa Damascena* petals (not just water to which drops of essential oil have been added). With a light, refreshing fragrance, **Eco Spa Rose Floral Water** has its own unique qualities directly related to the properties of Rose essential oil. It is excellent for all skin types, and has astringent properties that help to reduce the appearance of fine lines and wrinkles. Apply thinly with a masque brush to assist with ease of clay based masque removal. Leave on the treatment area for 5-10 minutes then remove with a cold compress or sponge. This treatment is strongly recommended after removal of facial, chest and back hair.

### Products used:

- Phâro Manuka Honey Sugaring Gel
- Eco Spa Argiletz French Green Clay Mask mixed with Eco Spa Floral Rose Water

## Phâro Metabolic Booster Treatment

**Eco Spa Metabolic Booster Rose Massage Oil** is a rich blend of vegetable oils with an environmentally friendly vegetable derived dispersant blended with *Fucus vesiculosus*. Known by the common name of Bladderwrack, this form of kelp (seaweed) is a nourishing tonic for the skin. Bladderwrack is found on the coasts of the North Sea, the western Baltic Sea, and the Atlantic and Pacific Oceans and has been used medicinally for centuries. The main use of the herb has been for the treatment of cellulite. The high iodine content of the herb stimulates thyroid function which boosts metabolism. A nourishing tonic for cellulite with tiredness and dry skin, Bladderwrack also appears to assist in the problem of lipid balance associated with obesity, and where obesity is associated with thyroid dysfunction, this herb may help to reduce excess weight. Essential Oil of Rose has antibacterial, anti-fungal and antiviral properties, making it ideal to topically treat ailments including abrasions, burns and skin conditions.

### The Treatment:

**Eco Spa Metabolic Booster Rose Massage Oil** is massaged into the treated area relieving the symptoms of tiredness, dry skin and surface cellulite. Your clients skin will feel soft and nourished and as an added bonus we have ensured that the blend is an easy wash blend so that your towels and linen will wash clean without any residue left on them.
